

Microsymposium 38 Abstracts

Table of Contents

1

<b>VENUSIAN CORONA-NOVAE WITH ARCUATE GRABEN: EVIDENCE FOR LAVA-FLOW MODIFICATION</b> Aittola M. and Kostama V.-P.	<b>MS002</b>
<b>METEORITE ABLATION BASED ON COSMIC RAY TRACK STUDIES</b> Alexeev V.A.	<b>MS003</b>
<b>DEFINITION OF PARAMETERS OF NUCLEUSES OF GALACTIC COMETS BY MEASUREMENT OF DIAMETERS OF CRATERS ON THE MARS AND THE MOON</b> Barenbaum A.A.	<b>MS004</b>
<b>VARIATIONS OF ELASTIC ENERGY IN EARTH-MOON SYSTEM AND THEIR CORRELATIONS WITH EARTHQUAKES AND MOONQUAKES</b> Barkin Yu.V., Ferrandiz J.M., and Navarro J.	<b>MS005</b>
<b>MONITORING MARS LOD VARIATIONS FROM A HIGH ALTITUDE CIRCULAR EQUATORIAL ORBIT</b> Barriot J.-P.	<b>MS006</b>
<b>AIRFALL CRATER DEPOSITS ON THE SURFACE OF VENUS</b> Basilevsky A.T. and Head J.W.	<b>MS007</b>
<b>EJECTA OUTFLOWS OF VENUSIAN IMPACT CRATERS: CORRELATION WITH THE DARK HALO PRESERVATION DEGREE</b> Basilevsky A.T. and Setytaeva I.V.	<b>MS008</b>
<b>THE TERRA ARABIA LOW EPITHERMAL NEUTRON FLUX ANOMALY: POSSIBLE CORRELATION WITH PRESENCE OF LAYERED DEPOSITS</b> Basilevsky A.T., Kozyrev A.S., Sanin A.B., Mitrofanov I.G., Neukum G., Werner S., Head J.W., Boynton W., and Saunders R.S.	<b>MS009</b>
<b>THICKNESS OF CRATER-RELATED MANTLES ON VENUS</b> Bondarenko N.V. and Head J.W.	<b>MS010</b>
<b>THE GEOLOGIC EVOLUTION OF THE URAL MOUNTAINS: A SUPPOSED EXPOSURE TO A GIANT IMPACT</b> Burba G.A.	<b>MS011</b>
<b>ARRANGEMENT OF LAVA CHANNELS ON THE SURFACE OF VENUS: A POSSIBLE EVIDENCE OF THE INTERIOR DYNAMICS</b> Burba G.A.	<b>MS012</b>
<b>SEARCH OF CORRELATION BETWEEN NUCLEAR LINES MEASURED BY GRS AND NEUTRON DATA FROM HEND ONBOARD 2001 MARS ODYSSEY</b> Charyshnikov S.V., Litvak M.L., Mitrofanov I.G., Kozyrev A.S., Sanin A.B., Tretyakov V., Boynton W.V., Hamara D.K., Shinohara C., Saunders R.S., and Drake D.	<b>MS013</b>
<b>WHEN MARS WAS SIMILAR TO JUPITER</b> Dmitriev E.V.	<b>MS014</b>
<b>MARS: MOVEMENT OF GEOGRAPHICAL POLES AND DEFORMATION OF ITS SURFACE</b> Dolitsky A.V., Rodionova J.F., Kochetkov R.M., Ainetdinova A.F.	<b>MS015</b>
<b>CHARACTERISTICS OF VALLEYS ON CERAUNIUS THOLUS AND THEIR FORMATION: PART I</b> Fassett C.I. and Head J.W.	<b>MS016</b>
<b>CHARACTERISTICS OF VALLEYS ON CERAUNIUS THOLUS AND THEIR FORMATION: PART II</b> Fassett C.I. and Head J.W.	<b>MS017</b>
<b>HIGH DENSITY PHASES AS AN ATTRIBUTE OF IMPACT STRUCTURES. CONDITIONS OF FORMATION AND PRESERVATION IN SHOCK PROCESSES</b> Feldman V.I., Sazonova L.V., and Kozlov E.A.	<b>MS018</b>

Microsymposium 38 Abstracts

Table of Contents

2

<b>ESA SMART-1 MISSION TO THE MOON</b> Foing B.H., Michael G., Racca G.R., Marini A., Grande M., Huovelin J., Josset J.-L., Keller H.U., Nathues A., Koschny D., and Malkki A.	<b>MS019</b>
<b>COMPARATIVE DEGASSING HISTORY OF EARTH AND VENUS</b> Franck S. and Bounama C.	<b>MS020</b>
<b>SPHERICAL ANALYSIS OF GEOMETRY OF EARTH STRUCTURES</b> Garcia Ferrandez M., Ferrandiz J.M., and Barkin Yu.V.	<b>MS021</b>
<b>IMPACTS OF LARGE METEORITES AS A POSSIBLE SOURCE OF ORGANIC COMPONENTS ON TITAN</b> Gerasimov M.V. and Safonova E.N.	<b>MS022</b>
<b>ON THE EVAPORATIVE CHEMICAL DIFFERENTIATION OF IMPACT-PRODUCED MELTS</b> Gerasimov M.V., Yakovlev O.I., Dikov Yu.P., and Ivanov B.A.	<b>MS023</b>
<b>SEARCH FOR SEASONAL VARIATIONS OF MARTIAN GAMMA-RAY FLUX BASED ON HEND/ODYSSEY DATA</b> Grinkov V.Y., Mitrofanov I.G., Charyshnikov S.V., Litvak M.L., Kozyrev A.S., Sanin A.B., Tretyakov V., Boynton W.V., Hamara D.K., Shinohara C., Saunders R.S., and Drake D.	<b>MS024</b>
<b>VENUS SURFACE PANORAMAS: HYPOTHESES FOR THE ORIGIN OF SURFACE FEATURES</b> Head J.W. and Basilevsky A.T.	<b>MS025</b>
<b>THE MARTIAN HYDROLOGICAL CYCLE AND LATE NOACHIAN HYDROLOGY: TERRESTRIAL BACKGROUND 1</b> Head J.W., Carr M., Russell P., Fassett C.I.	<b>MS026</b>
<b>THE MARTIAN HYDROLOGICAL CYCLE AND LATE NOACHIAN HYDROLOGY: TERRESTRIAL BACKGROUND 2</b> Head J.W., Carr M., Russell P., Fassett C.I.	<b>MS027</b>
<b>LATE NOACHIAN HYDROLOGICAL CYCLE: GROUNDWATER SAPPING TERRESTRIAL ANALOGS AND LABORATORY EXPERIMENTS 3</b> Head J.W., Carr M., Russell P., Fassett C.I.	<b>MS028</b>
<b>LATE NOACHIAN HYDROLOGICAL CYCLE: THEATER-HEADED VALLEYS, FRETTED CHANNELS AND LARGE VALLEY NETWORKS 4</b> Head J.W., Carr M., Russell P., Fassett C.I.	<b>MS029</b>
<b>LATE NOACHIAN HYDROLOGICAL CYCLE: THE DICHOTOMY BOUNDARY 5</b> Head J.W., Carr M., Russell P., Fassett C.I.	<b>MS030</b>
<b>LATE NOACHIAN HYDROLOGICAL CYCLE: THE DICHOTOMY BOUNDARY 6</b> Head J.W., Carr M., Russell P., Fassett C.I.	<b>MS031</b>
<b>MARTIAN HYDROLOGY: SUMMARY OF THE LATE NOACHIAN HYDROLOGICAL CYCLE 7</b> Head J.W., Carr M., Russell P., Fassett C.I.	<b>MS032</b>
<b>GEOLOGY AND HYDROLOGY OF THE ARGYRE BASIN, MARS BASED ON MOLA AND MOC DATA</b> Hiesinger H. and Head J.W.	<b>MS033</b>
<b>LUNAR SOUTH POLE-AITKEN IMPACT BASIN: CLEMENTINE TOPOGRAPHY AND IMPLICATIONS FOR THE INTERPRETATION OF BASIN STRUCTURE AND STRATIGRAPHY</b> Hiesinger H. and Head J.W.	<b>MS101</b>
<b>BIOGENIC RINGED DARK DUNE SPOTS ON MARS?</b> Horvath A., Ganti T., Berczi Sz., and Szathmary E.	<b>MS034</b>
<b>SOME FEATURES OF THE CRATERING OF ISIDIS BASIN</b> Iluhina J.A., Lagutkina A.V., and Rodionova J.F.	<b>MS035</b>

Microsymposium 38 Abstracts

Table of Contents

3

<b>ELECTRICAL MODEL OF MARTIAN POLAR CAPS: POSSIBLE IMPLICATIONS FOR ORBITAL RADAR SOUNDING</b> Ilyushin Ya.A.	MS036
<b>DEMONSTRATION OF POLYGONAL ICE-WEDGES TERRAINS ON THE WEASTERN SIBIREA AND THEIR COMPATIBILITY WITH SAME PATTERNS ON THE MARS</b> Isaev V.S., Abramenko O.N.	MS001
<b>STRATIGRAPHY OF SMALL SHIELDS ON VENUS: CRITERIA FOR DETERMINING STRATIGRAPHIC RELATIONSHIPS AND ASSESSMENT OF THE RELATIVE AGE</b> Ivanov M.A. and Head J.W.	MS037
<b>GEOLOGIC MAP OF THE MYLITTA FLUCTUS QUADRANGLE (V-61), VENUS</b> Ivanov M.A. and Head J.W.	MS038
<b>THE COMPLEX RESEARCH OF SHOCK-THERMAL HISTORY OF THE ENSTATITE CHONDRITES</b> Ivliev A.I., Kashkarov L.L., Kalinina G.V., Kuyunko N.S., Lavrentyeva Z.A., Lyul A.Yu., and Skripnik A.Ya.	MS039
<b>THE MAGMATIC TRANSPORT OF CARBON AND HYDROGEN CONSTITUENTS FROM REDUCED PLANETARY INTERIORS</b> Kadik A.A.	MS040
<b>KAUDUN CR2 CHONDRITE: RADIATION AND SHOCK-THERMAL HISTORY OF THE GLASS INCLUSIONS</b> Kashkarov L.L., Ivliev A.I., Kalinina G.V., and Skripnik A.Ya.	MS041
<b>TO THE PROBLEM OF SEARCH FOR SUPER-HEAVY ELEMENT TRACES IN THE METEORITES: PROBABILITY OF THEIR DISCOVERY BY THE NUCLEAR SPONTANEOUS FISSION TRACKS</b> Kashkarov L.L., Kravets L.I., Kalinina G.V., and Kniazeva G.P.	MS042
<b>MAPS OF MATURITY-CORRELATED PARAMETERS OF THE LUNAR REGOLITH</b> Kaydash V., Shkuratov Yu., Pieters C., Omelchenko V., and Stankevich D.	MS043
<b>ARKHYS-DISTURBED METEORITE CRATER IN NORTH CAUCASUS</b> Khrjanina L.P.	MS044
<b>TECTONICALLY AND CHEMICALLY DICHOTOMIC MARS IS THE LEAST OUTGASSED OF TERRESTRIAL PLANETS</b> Kochemasov G.G.	MS045
<b>STRUCTURES OF THE WAVE PLANETOLOGY AND THEIR PROJECTION ONTO THE SOLAR PHOTOSPHERE: WHY SOLAR SUPERGRANULES ARE 30000 KM ACROSS</b> Kochemasov G.G.	MS046
<b>MODIFIED ALPHA PARTICLE X-RAY SPECTROMETER FOR USE IN PLANETARY RESEARCH</b> Korchuganov B.N., Dolnikov G.G., Gerasimov M.V., Prilutskiy O.F., Rieder R., and Klingelhoef G.	MS047
<b>POST-IMPACT DEPRESSIONS ON MARTIAN CRATER FLOORS: PRELIMINARY RESULTS AND A CASE STUDY OF THE GREATER HELLAS REGION</b> Korteniemi J., Kostama V.-P. and Raitala J.	MS048
<b>TEMPERATURE MODE IN COLD TRAPS ON THE MOON</b> Kozlova E.A.	MS049
<b>SUBSURFACE WATER DISTRIBUTION IN MARTIAN EQUATORIAL REGIONS FROM HEND/ODYSSEY DATA</b> Kozyrev A.S., Mitrofanov I.G., Litvak M.L., Sanin A.B., Tretyakov V., Boynton W.V., Hamara D.K., Shinohara C., Saunders R. S., and Drake D.	MS050
<b>CALDERAS ON VENUS AND EARTH (I). PLANET EARTH: OVERVIEW OF CALDERAS</b> Krassilnikov A.S. and Head J.W.	MS051

Microsymposium 38 Abstracts

Table of Contents

4

<b>CALDERAS ON VENUS AND EARTH (II): COMPARISON AND MODELS OF FORMATION</b> Krassilnikov A.S. and Head J.W.	<b>MS052</b>
<b>POSSIBLE ROLE OF MAGNETIC MATERIALS IN RADIOPHYSICS OF VENUS SURFACE</b> Kreslavsky M.A. and Starukhina L.V.	<b>MS053</b>
<b>CRATERS AND OTHER CIRCULAR FEATURES IN NORTHERN CIRCUMPOLAR AREA, MARS</b> Kreslavsky M.A., Kostama V.-P., and Head J.W.	<b>MS054</b>
<b>AN INTERNAL LIQUID-WATER OCEAN IN CALLISTO</b> Kronrod V.A. and Kuskov O.L.	<b>MS055</b>
<b>PREPARATION OF THE LUNAR SURFACE SURVEYING RESULTS ON THE PROGRAM "Zond" FOR REPRESENTATION IN INFORMATION SYSTEM</b> Kurpichev A.V.	<b>MS056</b>
<b>THE CRATER LAKES AND OTHER IMPLICATIONS FOR STANDING BODIES OF WATER IN HELLAS REGION, MARS</b> Lahtela H., Kostama V.-P., Aittola M., Ohman T., and Raitala J.	<b>MS057</b>
<b>AUBRITES: TRACE ELEMENT ABUNDANCES IN SEPARATED PHASES AND PETROGENESIS</b> Lavrentjeva Z.A., Lyul A.Yu., and Kolesov G.M.	<b>MS058</b>
<b>SOME PROBLEMS OF THE EVOLUTION OF ASTEROID - RUBBLE PILE</b> Leikin G.A. and Sanovich A.N.	<b>MS059</b>
<b>THE CONCEPT ON FORMATION OF THE TERRITORIAL - SPATIAL DATA BASE DEVELOPMENT AS A TOOL TO REPRESENT THE CARTOGRAPHIC INFORMATION OF SOLAR SYSTEM BODIES</b> Leonenko S.M.	<b>MS060</b>
<b>OBSERVATIONS OF MARS SEASONAL CAPS FROM HEND/ODYSSEY DATA</b> Litvak M.L., Mitrofanov I.G., Kozyrev A.S., Sanin A.B., Tretyakov V., Boynton W.V., Hamara D.K., Shinohara C., Saunders R.S., and Drake D.	<b>MS061</b>
<b>POSSIBLE REASONS OF LOW Fe<sup>3+</sup>/Fe<sup>2+</sup> RATIOS IN TEKTITES IN COMPARISON WITH THAT OF INITIAL TARGET MATTER INVOLVED IN THE IMPACT PROCESS</b> Lukanin O.A. and Kadik A.A.	<b>MS062</b>
<b>FORMATION OF HYDRATED SILICATES IN EDGEWORTH-KUIPER BELT OBJECTS</b> Makalkin A.B., Dorofeeva V.A., and Busarev V.V.	<b>MS063</b>
<b>LUNAR CRATERS HAVE ENDOGENIC NATURE</b> Makarenko G.F.	<b>MS064</b>
<b>ESTIMATED VOLUMES OF DAO, NIGER, HARMAKHIS AND REULL VALLIS AND THE DEPOSITS INSIDE HELLAS BASIN</b> Manso Rogeiro I., Raitala J., Aittola M., and Kostama V.-P.	<b>MS065</b>
<b>VOLCANIC FESTOON DEPOSITS ON VENUS: FRACTAL ANALYSES AND IMPLICATIONS FOR EMPLACEMENT</b> McColley S.M. and Head J.W.	<b>MS066</b>
<b>SURVEY OF MARS CRATER TOPOGRAPHY FROM MOLA DATA</b> Michael G.G.	<b>MS067</b>
<b>BEAGLE-2 LANDING SITE ATLAS</b> Michael G.G., Chicarro A.F., Rodionova J.F., Shevchenko V.V., Iluhina J., and Kozlova E.A.	<b>MS068</b>
<b>VERTICAL DISTRIBUTION OF SHALLOW WATER IN MARS SUBSURFACE FROM HEND/ODYSSEY DATA</b> Mitrofanov I.G., Litvak M.L., Kozyrev A.S., Sanin A.B., Tretyakov V., Boynton W.V., Hamara D.K., Shinohara C., Saunders R. S., and Drake D.	<b>MS069</b>
<b>MAPS OF LUNAR PYROXENES</b> Omelchenko V., Shkuratov Yu., Pieters C., Stankevich D., and Kaydash V.	<b>MS070</b>

Microsymposium 38 Abstracts

Table of Contents

5

<b>MICROSTRUCTURE PROPERTIES OF THE REINER GAMMA FORMATION AS DEDUCED FROM EARTH-BASED PHOTOMETRY AND POLARIMETRY</b> Opanasenko N. and Shkuratov Yu.	MS071
<b>SOURCES OF WATER RELATED TO THE EXCAVATION OF THE SHALBATANA VALLEY SYSTEM, MARS</b> Palmero A., Sasaki S., Kuzmin R.O., and Greeley R.	MS072
<b>THE CASTALIA MACULA REGION: A PLATE RECONSTRUCTION MODELLING TEST CASE</b> Patterson G.W. and Head J.W.	MS073
<b>EARLY EARTH AND XE-MISSING PROBLEM SOLUTION</b> Pechernikova G.V., Vityazev A.V., and Bashkirov A.G.	MS074
<b>ON A PROBLEM FOR SEARCHING OF EXO-PLANET SATELLITES</b> Perov N.I. and Nahodneva A.A.	MS075
<b>PHOTOMETRY OF REGOLITH-LIKE SURFACES: ALBEDO AND SURFACE ROUGHNESS EFFECTS</b> Petrov D.V. and Shkuratov Yu.G.	MS076
<b>SYSTEMATIC GLOBAL MIXING AND MELTING IN LUNAR SOIL EVOLUTION</b> Pieters C. M. and Taylor L. A.	MS077
<b>VENUS: GLOBAL MAPPING OF RIDGE BELT PATTERNS</b> Pivchenkova E.V. and Kryuchkov V.P.	MS078
<b>ON THE BASIS OF TERRESTRIAL ANALOGUE SITE STUDIES ARE THE DARK DUNE SPOTS REMNANTS OF THE CRYPTO-BIOTIC-CRUST OF MARS?</b> Pocs T., Horvath A., Ganti T., Berczi Sz., and Szathmary E.	MS079
<b>PHYSICAL AND MINERALOGY CHARACTERISTICS OF THE LUNAR REGOLITH IN THE AREAS OF THE THERMAL ANOMALIES</b> Pugacheva S.G. and Shevchenko V.V.	MS080
<b>PAVONIS MONS FAN-SHAPED DEPOSIT - A COLD-BASED GLACIAL MODEL</b> Shean D.E. and Head J.W.	MS081
<b>EVALUATING THE STRUCTURE OF THE SURFACE LAYER OF MERCURY</b> Shevchenko V.V.	MS082
<b>MERCURY: LOCAL VARIATIONS OF THE PHOTOMETRIC RELIEF</b> Shevchenko V.V.	MS083
<b>REMOTE DETERMINATION OF LUNAR SOIL MATURITY</b> Shevchenko V.V., Pinet P., Chevrel S., Daydou Y., Skobeleva T.P., Kvaratskhelia O.I., and Rosemberg C.	MS084
<b>REMOTE METHOD OF IDENTIFICATION OF THE EJECTA LUNAR TERRAINS AND THEIR COMPOSITION FITURES</b> Shevchenko V.V., Pinet P., Chevrel S., Pugacheva S.G., and Daydou Y.	MS085
<b>SIMULATION OF SOME SPACE WEATHERING EFFECTS IN PHOBOS REGOLITH BY LASER IRRADIATION OF CARBONACEOUS CHONDRITE MIGHEI</b> Shingareva T.V., Basilevsky A.T., Fisenko A.V., Semjonova L.F., Chistyakova N.I., and Nechelyustov G.N.	MS086
<b>SOME RESULTS BY USING OF NONLINEAR ALGORITHM FOR CALCULATION OF TRANSFORMATION PARAMETRS BETWEEN PLANET COORDINATE SYSTEMS</b> Shirenin A.M.	MS087
<b>REGULARITIES OF THE "MERCURY BREATH" OF THE EARTH. II. AMPLITUDES OF MERCURY VAPOR FLOW AND THEIR SENSITIVITIES TO EARTH-CRUST TIDES</b> Stakheev Yu.I.	MS088

Microsymposium 38 Abstracts

Table of Contents

6

<b>NUMERICAL SIMULATION OF VERTICAL DISTRIBUTION OF NEUTRONS BORNED BY COSMIC RAYS IN A MODEL MARTIAN SOILS FOR PROCESSING OF HEND/ODYSSEY DATA</b> Tretyakov V., Litvak M.L., Mitrofanov I.G., Kozyrev A.S., Sanin A.B., Boynton W.V., Hamara D.K., Shinohara C., Saunders R.S., and Drake D.	<b>MS089</b>
<b>THE MORPHOMETRIC ANALISYS OF THE FEATURES OF MARTIAN CRATERS</b> Ushkin I.A., Michael G.G., Kozlova E.A.	<b>MS090</b>
<b>TECHNIQUE, ALGORITHMS AND THE SOFTWARE OF DYNAMIC REGRESSION MODELLING</b> Valeev S.G. and Sergeyev E.S.	<b>MS091</b>
<b>MODELLING OF MOVEMENT OF THE EARTH POLES ON THE BASIS OF THE DRM-APPROACH</b> Valeev S.G. and Sergeyev E.S.	<b>MS092</b>
<b>PERSPECTIVES OF APPLICATION OF METHODOLOGY OF DRM-APPROUCH FOR MODELLING OF SOLAR ACTIVITY (SA)</b> Valeev S.G. and Sergeyev E.S.	<b>MS093</b>
<b>RECENT RESULTS OF UKRAINIAN SHIELD ASTROBLEMES STUDY AND THEIR POSSIBLE SIGNIFICANCE TO GEOLOGY AND PLANETOLOGY</b> Valter A.A.	<b>MS094</b>
<b>SOUTH-POLAR POLYGONAL PATTERNS - PHENOTYPES AND LOCAL GEOMORPHOLOGIC CONTEXT</b> van Gasselt S., Reiss D., and Neukum G.	<b>MS095</b>
<b>ON ABILITY OF STUDY OF NATURE OF CELESTIAL BODIES UNDER POLARIZATION MEASUREMENTS</b> Vid'machenko A.P. and Morozhenko A.V.	<b>MS096</b>
<b>GEOLOGY AND STRATIGRAPHY OF IMPACT CRATERS ON CALLISTO - RESULTS FROM HIGH-RESOLUTION IMAGES OF THE GALILEO SSI CAMERA</b> Wagner R. and Neukum G.	<b>MS097</b>
<b>STRATIGRAPHY AND AGES OF LUNAR VOLCANIC DOMES: HANSTEEN AND HELMET REGIONS</b> Wagner R.J., Head III J. W., Wolf U., and Neukum G.	<b>MS098</b>
<b>GIANT POLYGONS IN MARTIAN LOWLAND PLAINS AND THE EXISTENCE OF AN OCEAN</b> Werner S. C., van Gasselt S., and Neukum G.	<b>MS099</b>
<b>THE ROLE OF SINGLE SCATTERING IN SHAPING OF NEGATIVE POLARIZATION BRANCHES OF DARK REGOLITH-LIKE SURFACES</b> Zubko E., Ovcharenko A., Shkuratov Yu., and Videen G.	<b>MS100</b>
